Project Design Phase-II
Technology Stack (Architecture & Stack)

Date	3 October 2026
Team ID	6ab8c0438c7c66e7067306ef
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	

Technical Architecture:

The technical architecture of the project explains how employee information is imported from a spreadsheet into the ServiceNow Employee table using Import Sets and Transform Maps.

Example:

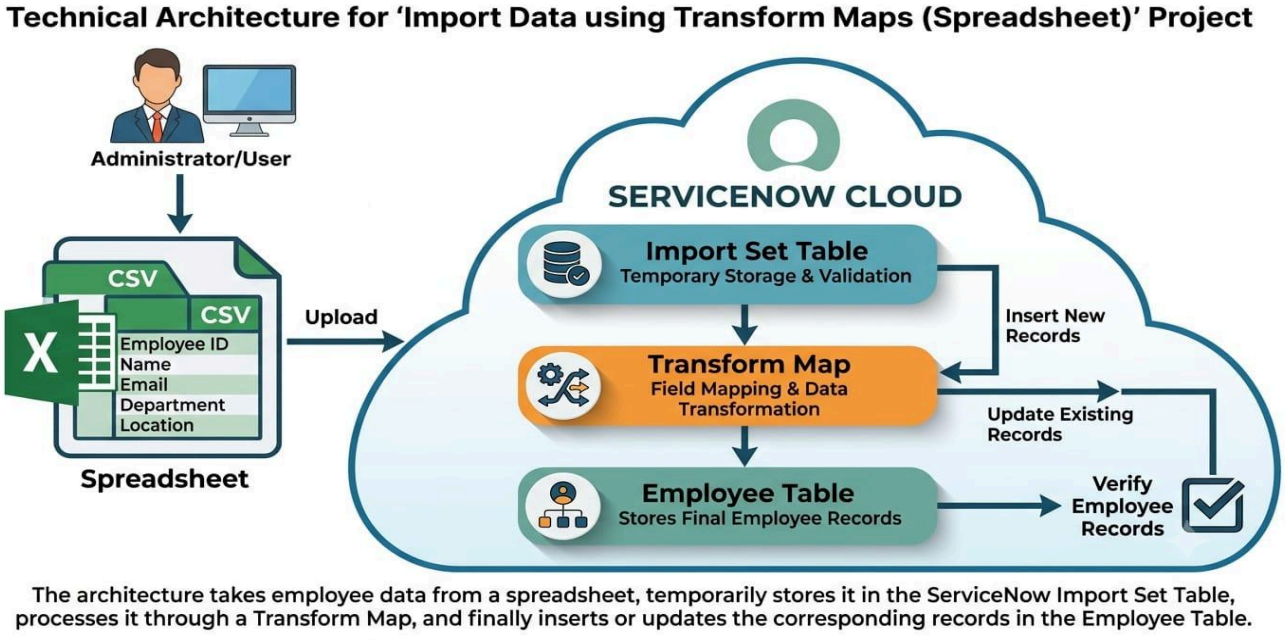

Table-1 : Components & Technologies:

S.No	Component	Description	Technology
1.	User Interface	Interface used by the user to upload the employee spreadsheet and view imported records.	ServiceNow Web UI
2.	Application Logic-1	Handles the import of spreadsheet data into the ServiceNow Import Set.	ServiceNow Import Set
3.	Application Logic-2	Maps spreadsheet fields to the corresponding Employee table fields.	ServiceNow Transform Map
4.	Application Logic-3	Validates and processes employee records for insertion or update.	ServiceNow Data Transformation
5.	Database	Stores the imported and processed employee records.	ServiceNow Database / Tables
6.	Cloud Database	Cloud-based storage provided as part of the ServiceNow platform.	ServiceNow Cloud Database
7.	File Storage	Stores the input spreadsheet before it is imported into ServiceNow.	Local File / Spreadsheet
8.	External API-1	No external API is required for the employee data import process.	Not Applicable
9.	External API-2	No second external API is used in the project.	Not Applicable
10.	Machine Learning Model	Machine learning is not required for spreadsheet data import and transformation.	Not Applicable
11.	Infrastructure (Server / Cloud)	Application and data processing are hosted and executed on the ServiceNow cloud platform.	ServiceNow Cloud Platform

Table-2: Application Characteristics:

S.No	Characteristics	Description	Technology
1.	Open-Source Frameworks	No external open-source framework is required. The project uses ServiceNow's built-in features.	ServiceNow Platform
2.	Security Implementations	Access controls and user permissions are used to restrict data access and import operations.	ServiceNow ACL, Roles & Authentication

S.No	Characteristics	Description	Technology
3.	Scalable Architecture	ServiceNow cloud infrastructure supports increasing amounts of employee data and users without requiring local server expansion.	ServiceNow Cloud Platform
4.	Availability	The application is hosted on the ServiceNow cloud platform, providing continuous access to authorized users.	ServiceNow Cloud Infrastructure
5.	Performance	Import Sets and Transform Maps process spreadsheet records systematically and reduce manual data entry.	Import Sets & Transform Maps
